## MRS. STANLEY THOMAS HEADS THE LIST

Excitement and Enthusiasm in Grand Premium Contest Running High.

CONTESTANTS GETTING DOWN TO WORK.

Mrs. Stanley Thomas, heads the list this week in the Grand Premium Contest. Miss Zena Shanks is a close second and Miss Amelia Price, a close third, while Mrs. Chas. Young and Miss Beatrice Robinson, are not far behind and several others are in sight. There has been considerable talk for the past few days of a dark horse who will spring a surprise on the contestants in the early part of June.

It is said, one of the contestants who is near the bottom of the list will go up head and be a factor in the fight. Whether such is the case or not it behooves every one interested in this contest to keep hard at work and get all the votes possible in order to be ready when the last day comes. The Earlinton Bee gives 2000 votes with every paid up yearly subscription and 1000 votes for every dollar paid on job work or advertising. It looks like it would be a good idea to flirt with the Bee a little in this contest.

The following names is the standing in Grand Premium Contest.

## PRIVATE PROPERTY VS. MINERS' UNION

President Wilson's Action in The Premises

The case of John D. Rockefeller, Jr., and the union of miners may be looked upon in years to come as a first step in the United States toward official government denial of the absolute right to control private property.

The interesting question concerns the right of a man to own and control his property, big or little.

For the first time in this country the right, apparently, was questioned officially when Mr. Wilson, President of the United States, sent to Mr. Rockefeller a message practically holding him responsible for labor troubles in the Colorado mines, and putting upon him the moral responsibility for those troubles.

There are other mines in Colorado involved in the labor trouble besides Mr. Rockefeller's and outside of his control.

And there are other very big owners in the Rockefeller Co.—those owners include the Gould estate. But the attention of the government and of the public is concentrated upon the Rockefeller family alone, by the action of the President, and the action of Socialist agitators.

Socialist organizations parade in front of the Rockefeller offices in New York. Other socialist demonstrators parade in front of the Rockefeller private residence. One Socialist named Upton Sinclair threatens to horsewhip Rockefeller without any further hearing. A young woman Socialist threatens to take his life. And an official representative of the government calls personally upon Rockefeller to demand that he settle the labor trouble by waiving his right to control property that he has bought and also his right to maintain the open shop—that is to say, to permit any man to work who chooses.

Those who represent the Rockefeller side of the controversy say that the right to purchase, own and manage a mine is the same as a right to run a clothing store, a newspaper or a restaurant. They say that interference by the government is a direct violation of the rights of the citizen and that the government will interfere and take away the individual's right to control his property. They point out that if this is done to a very big capitalist in 1914 and if such a capitalist is notified by the government that he must waive his property rights, the same thing may happen to the little business man, the little factory owner or the farmer in 1924.

The Rockefeller representatives show that their men work 8 hours a day and are paid twice a month. They show that the workmen make four dollars and a half a day and in many cases more, that the wages paid last year were voluntarily increased by a total amount of \$550,000 to the miners and steel workers in spite of the fact that the stock of the company pays no dividends to the owners—the common stock having paid no dividend for more than ten years and the preferred stock one dividend in that time.

This situation involves a powerful union, that of the miners, and the most powerful capitalist in the world—the greatest organizing genius probably. It also involves the President of the United States, and, above all, the right to control private property. It is a matter intensely interesting to the people of the United States who watch the drift of events with an eye on the past history and the beginning of revolution.

Times change and conditions change. A short time ago there was bitter complaint by the people that the ownership of great property conferred a special power and superiority to the law. And now it is made to appear that the possession of great property may mean, if the national administration so chooses, loss of power to control that property, and especially adverse discrimination that does not apply to the little owner.

The farmer may hire his man for a dollar a day or a dollar and a half or two dollars. No official denies his right to hire whom he chooses, or to run "an open shop." Add the authorities would at once protect the farmer if agitators from an outside county should gather and tell him whom he must employ and what wages he must pay on his own property. But in the case of a very big owner of property, when an outside organization of miners comes to dictate who shall be employed, what shall be paid, using arms to enforce demands, if the right of the individual owner is questioned the ancient ideas as to property rights are swept away.

## U. S. TROOPS ASSIGNED TO GUARD CANAL LOCKS

Colonel Goethals Takes Precaution to Prevent Trouble in Zone.

Washington, May 9.—Army detachments have been stationed to protect the locks along the Panama Canal, Colonel Goethals, governor of the Canal Zone, reported to the War Department today. Colonel Goethals said that, acting on instructions from Washington to take all prosecution against trouble at the canal during the Mexican situation, he had turned over the guarding of the locks to the commanding officer of the Tenth Infantry, now in the zone. Two companies of that regiment have been stationed at Gatun, one at Pedro Miguel and one at Miraflores to protect the locks.

## Funston Ready For Campaign

Washington, May 9.—General Funston is prepared to defend Vera Cruz from any attack and is ready for an advance to Mexico City if an aggressive campaign shall become necessary.

The War Department is completing plans for such an advance, that that operation may not be ordered. Transports are loaded with food supplies and have steamed up at Galveston, where two army brigades could embark on an hours notice.

## BRANCH GETS PENITENTIARY SENTENCE FOR LAST SHOOTING

Entire Madisonville Bar Appointed to Defend Him.

Madisonville, Ky., May 11.—In the Hopkins circuit court Saturday the jury returned a verdict, finding W. C. Branch guilty of shooting with intent to kill and sentenced him to the penitentiary for a term of from one to five years. The situation became amusing when, (as the defendant had no counsel) Judge Gordon attempted to appoint an attorney to represent him.

The judge appointed several prominent lawyers and they all had good excuse to offer. Some of the legal talent began to sneak from the court room when the judge appointed every member of the Madisonville bar as attorneys for the defendant.

## Goode-Wilkie

Miss Dora Wilkie, of Madisonville, and Mr. Curtis Goode, of this place, were married Sunday night at 7 o'clock by Rev. Howard J. Brazelton at the Christian parsonage, in the presence of a few friends. Rev. Brazelton performed the marriage ceremony in his usual impressive style. Mr. Goode is a popular young man and an employee of Coyle's barber shop. Miss Wilkie has been for a number of years a valued employee of the McLeod store in Madisonville and is a talented and accomplished young lady. They will live in Earlinton and the many friends of the young couple wish them all joy and happiness through life.

## Charlie Stewart Dead

Charlie Stewart, 18 years of age, of Ensley, Ala., who was hit in the head with a claw hammer a few days ago, died last Sunday. He was a son of Mr. and Mrs. John Stewart and a grandson of D. B. Griffin, of this place.

## INTERESTING SCHOOL CENSUS

Not a Single Illiterate Among Earlinton's 650 Pupil Children

SURPRISING FACT OF 157 FAMILIES WITH BUT ONE CHILD EACH

The census of the Earlinton Graded School district shows some interesting things this year, but the most interesting and encouraging feature of the whole matter is the fact that the enumerator found that there is not a single illiterate child within the entire district. That is, there is not a single child ten years of age and older who cannot read. This perhaps is the case in but few Kentucky districts that include so large a number of pupil children. The census just taken shows a total of 650 children between the ages of six and twenty years. There are 328 boys, and 322 girls, running along as is usual here with nearly an equal number of boys and girls. This total is some less than the census of 1913, made so because of the removal of a number of families in which there were several children to the family, and their replacement by families with only one or two children. Miss Mary Mothershead took the census again this year. She has been doing this work for the past several years and is perhaps more familiar with the work and the people in the district than anyone else. There were 72 pupil children who removed from the district during the past year, and 31 became exempt by attaining the age of twenty. The census of 1914 gained 58 by that many children becoming six years of age. One of the most unexpected facts developed by an analysis of the figures of the present census is the very considerable number of small families in Earlinton. There were 157 homes visited, in each of which there was just one child. The town and the district are full of people and there are as many families as before, but there are 88 less pupil children than last year because of the fact that the average number of children to the family is less.

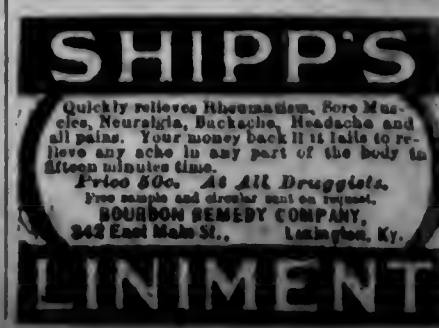

## SHIP BEARING U. S. DEAD AT VERA CRUZ REPORTED

Philadelphia Schools Will Close For Funeral of Dead Sailors

Washington, May 9.—The battleship Montana, which is bringing to New York the bodies of seventeen of those killed in the occupation of Vera Cruz, was reported passing Key West, Fla., last night, according to advices to the Navy Department.

The hospital ship Solace, bearing the wounded and the bodies of Harry Pulliam, fireman, and Clarence R. Hirschberger, seaman, both of the battleship Utah, who died yesterday, left Vera Cruz last night, Admiral Badger informed the department.

Philadelphia, May 8.—All public schools in this city will be closed on that day on which Gen. D. Poinsett and Charles Allan Smith, the young Philadelphia sailors killed at Vera Cruz, are buried here.

## ANNOUNCEMENT

We are authorized to announce  
Judge J. W. Hensou as a candi-  
date for Congress from the Sec-  
ond district, subject to the ac-  
tion of the democratic party.

If good, old, mother nature  
can do anything to overcome or  
neutralize the blundering ex-  
periments and inquisitorial ac-  
tivities of those now in leadership  
of this much governed nation.  
She promises to be right there  
with the goods. Her promise in  
one item is for 630,000,000 bush-  
els of winter wheat, the largest  
and most perfect yield ever pro-  
duced in these United States.  
Perhaps, when the theorists and  
experimenters have bumped their  
heads a few times and the vote-  
getters at Washington and else-  
where have worked off their  
campaign oratory, a few strokes  
like this 630-million-a-year by  
Mother Nature may help to bring  
this country down out of the  
clouds and fog again toward a  
normal, natural, old-time, mind-  
your-own-business-and-be-happy  
footing. Let us hope so.

## Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of  
humor and completely derange the whole system  
when entering it through the mucous surfaces.  
Such articles should never be used except on the  
prescriptions from reputable physicians, as the  
damage they will do is ten fold to the good you  
possibly derive from them. Hall's Catarrh  
Cure, manufactured by F. J. Cheney & Co., To-  
ledo, O., contains no mercury and is taken inter-  
nally, acting directly upon the blood and mucous  
surfaces of the system. In buying Hall's Catarrh  
Cure be sure you get the genuine. It is taken  
internally and made in Toledo, O., by F. J. Che-  
ney & Co. Testimonials free.  
Sold by Druggists. Price 75c per bottle.  
Take Hall's Family Pills for constipation.

## PASSING OF THE RUBE.

In days gone by the "dude"  
and the "rube" represented two  
of the extremes of life.

Today the dude is still with us,  
a useless piece of rubbish, but  
the rube has passed into the his-  
tory of men.

A few years ago no publica-  
tion of general circulation was  
considered complete without a  
caricature of the rube farmer.

He was generally betrayed in  
patched overalls stuck into cow-  
hide boots with heels looking  
him in the face, spiketailed  
whiskers and shaggy hair, an old  
straw hat with hair sticking  
through the crown, and a facial  
expression of the utmost as-  
tonishment or imbecility. His  
one gallus completed the picture.  
But where is the rube today?

He is on the farm, in the  
shops, the stores, the factories;  
he is high in the professions and  
his voice is heard in the halls of  
congress; he dispenses justice  
from the judicial bench and rep-  
resents his country in foreign  
climes; he is digging the wealth  
from the bowels of the earth,  
and searching the heavens for  
the words of the unknown. In  
a few years intellect, honesty  
and dogged determination have  
carried him to highest seats of  
the mighty.

And while some of the "rubes"  
have left the soil in search of  
wider fields, others have remain-  
ed on the farm—the one class of  
people upon whom all the world  
depends, and without which the  
people of the earth would cease  
to exist.

He still owns his farm but it  
is paid for, is well stocked, and  
the latest improved machinery  
is everywhere in evidence.

The "rube" of the farm is  
dressed in expensive clothing of  
the latest sensible pattern, drives  
his own automobile, owns stock  
in banks, and puts his surplus  
wealth out at interest on long  
time mortgages.

His sons and daughters are in  
the schools, the colleges the uni-  
versities, and he and his wife  
enjoy life as the most inde-  
pendent and carefree mortals on  
earth.

Hard times come and go, but  
they do not bother the "rube"  
of today. He has enough and to  
spare, and his scientific methods  
of farming are yearly adding to  
his store of wealth.

The "rube" of yesterday is the  
solid, substantial citizen of to-  
day—the bulwark behind which  
a mighty nation rests in security.

## MAJOR GENERAL BELL REACHED SAN FRANCISCO

San Francisco, May 7.—Major

## A Brilliant Idea

A few days ago some far sight-  
ed members of congress conceiv-  
ed the brilliant idea of putting  
the soldiers of the United States  
army to work building better  
roads over the country, and a bill  
has been introduced in the house  
to this effect. The idea is new—  
it may be good—it is at least  
original—and we certainly need  
better roads. But inasmuch as  
the army apparently has a man's  
job cut out for it in Mexico, and  
the country should not be de-

## THE Merchant Who Advertises

in your home paper wants  
your trade and does not  
hesitate to ask for it. He  
is not ashamed of his goods  
and wants you to see them.  
The merchant who does not  
advertise in your home pa-  
per does not care about  
your trade, or carries a line  
of inferior goods not worth  
advertising. You would  
not think of attending a  
social gathering without an  
invitation, neither should  
you spend your money  
with a merchant that does  
not think enough of your  
patronage to ask for it.  
Think it over? There's a  
reason.

## BIG AGRICULTURAL LAND OPENING

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted to prospective  
settlers in throwing open thirty thousand acres of rich Southern Georgia land, which is admirably adapt-  
ed to the growing of celery, sweet and Irish potatoes, canteloupes, water melons, corn, oats, cotton, hay—in-  
fact, all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the  
possibilities of profitable paper shell pecans.

Providing you way from the drudgery and toil of a small wage, or working for the benefit of landlords,  
and go back to the land of plenty, to which, if granted, you will hold a warranty deed an abstract.  
The best security of earth is the earth itself, and land is the basis of all wealth. Owners of productive  
lands are benefiting by the increasing high cost of living, while others are suffering from it.

## An Opportunity to Secure Rich Productive Land Without Capital.

You will not be required to leave your present sur-  
roundings now. All we ask of those to whom we  
grant tracts is that they plant, or arrange to have  
planted, a crop of one of the above-mentioned pro-  
ducts within three years, after which we will have  
it operated (harvested and replanted) for grantees.  
In consideration of 25 per cent. of the net profits de-  
rived from the sale of the crops, thereby allowing  
the grantee to pursue his or her present occupation  
until such time as they determine just what the  
yield of their acres amounts to. Consider what this  
may mean as a source of income, when statistics  
show that the yield of one acre of celery amounted  
to \$1,268.45, and that one acre of well-cared-for paper  
shell pecans, in full bearing, should net its owner as  
high as \$500.00 per year. We are of the opinion that  
after it is proven by actual results obtained in op-  
erating the land that they will need no further urging,  
and waste no time in locating in this land of plenty.  
We also require grantees to occupy the land within  
ten years, or sell it to some one who will occupy it;  
otherwise it reverts back to the grantor.

The land included in this opening is located direct-  
ly on an adjoining the Atlanta, Birmingham and  
Atlantic Railroad, about twenty-five miles west of  
Brunswick, a thriving city of fifteen thousand, hav-  
ing direct steamship service to New York and Bos-  
ton, an excellent railroad transportation facilities  
to all points. The average temperature for six  
months of the year, from April to October, is 77 de-  
grees; the climate is most beautiful, delightful, and  
there is an ample rainfall of 61 inches per year.

OUR AIM IS FOR MUTUALLY BENEFICIAL RESULTS  
As we are extremely desirous of having settlers  
locate on this property, and assist in its develop-

The presence of those registered will not be necessary at Browntown on the opening day, unless they  
wish to attend, for their will be no forwarding shown anyone. It will be conducted by a committee selected  
for the purpose, and those registered will be notified of what they have been granted, as soon as possible.  
With the ever-increasing population of this country there is an corresponding increase in the area of land,  
and naturally as the population increases and seeks the land in pursuit of health, happiness and indepen-  
dence, it will continue to be harder to secure.

The prosperous and contented class in Europe to-day are the descendants of those who secured land there  
when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves.  
You must realize that this may be your last chance to secure land in this country without a large outlay of  
capital, so it should not be necessary to urge you to act at once by forwarding us the application for registra-  
tion attached to this announcement.

## HUERTA'S POWER ABOUT GONE After Him Who Will Washington Nego- tate With

Vera Cruz, May 9.—The disin-  
tegration of the Huerta govern-  
ment within two weeks was  
prophesied by foreigners from  
Mexico City here today.

With the constant arrival of  
Mexicans and Europeans from  
the capital stories of the waning  
power of the dictator are pour-  
ing into Vera Cruz. One prom-  
inent refugee said:

"We believe that the United  
States will get knee-deep into  
mediation to discover suddenly  
that Huerta has lost the power  
to bargain for Mexico and anoth-  
er man is in the president's  
seat."

## Paxtine

A soluble Antiseptic Powder to  
be dissolved in water as needed.

As a medicinal antiseptic for douches  
in treating catarrh, inflammation or  
ulceration of nose, throat, and that  
caused by feminine ill it has no equal.  
For ten years the Lydia E. Pinkham  
Medicine Co. has recommended Paxtine  
in their private correspondence with  
women, which proves its superiority.  
Women who have been cured say  
it is "worth its weight in gold." At

## Pleasure and Protection

"One of the best reasons why I would not be without telephone service," writes a Georgia farmer, "is the pleasure it gives my wife and the knowledge that while I am away, she has the protection that the telephone gives."

On the farm the telephone dispels loneliness and is the means of bringing help in any emergency that may arise.

If you haven't a telephone on your farm see the nearest Bell Telephone Manager or write for our free booklet and learn how little this service costs.

### RUN-DOWN WOMEN

Find Health in a Simple Tonic.

How many women do you know who are perfectly well, strong and healthy as a woman should be? They may not be sick enough to lie in bed—but they are run-down, thin, nervous, tired and debilitated.

Women are so active nowadays, and so much is expected of them, that they constantly overdo and suffer from headache, backache, nervousness and kindred ills.

Such women need Vinol, our delicious cod liver and iron tonic without oil which will create an appetite, tone up the digestive organs, make pure blood and create strength.

Mrs. Walter Price, Biloxi, Miss., says: "I was in a run-down condition for months, I had taken several medicines but they seemed to do me no good. Finally Vinol was recommended, and from the first bottle I began to improve until I am strong and well as ever."

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

P. S.—For pimples and blotches try our Saxo Salve. We guarantee it. St. Bernard Mining Co., Incorporated, Drug Department, Special Agents.

### REMARKABLE AUTOMATIC TRAIN CONTROL IS BEING TRIED OUT

Experiments on Queen & Crescent Promise Much For Safety

An automatic signal and train control, that is undergoing experimentation on the line of the Queen & Crescent, has proved a great success and there is every indication that the road will adopt the new device over its entire system. The cost of installation is estimated at about one-fifteenth that of the automatic block system, and its friends claim that it is many times as effective.

Test runs have been made frequently over the tracks between Ludlow and Williamsport, and it is now intended to further install the line for a distance of fifty miles. Signals have been picked up by trains going at a speed of more than fifty miles an hour, and superintendents, engineers and master mechanics of not only the Queen & Crescent but most of the other lines have given the invention the closest observation and report it as an

The control automatically brings the train to a low speed when approaching a caution block and will, if desired, bring the wheels to a full stop when entering a danger block. All this is done without the aid of the engineer, and, in fact, no human hand can force the train to exceed the speed set by the control.
